

Atef Elsherbeni – Undergraduate Courses Taught

Revised September 2024

ATEF Z. ELSHERBENI
IEEE Fellow (2007) and ACES Fellow (2008)

Undergraduate Courses Taught: (Total 15)

Undergraduate Courses Taught at Colorado School of Mines:

- COMING SOON

Undergraduate Courses Taught at the University of Mississippi:

- Principles of Digital Systems (EL.E. 335)
- Microwave Measurements (EL.E. 433)
- Electric Circuit Theory (ENGR 360)
- Electromagnetic Theory (EL.E. 441)
- Senior Design I (EL.E. 461)
- Senior Design II (EL.E. 462)
- Introduction to Antennas (EL.E. 525)
- Introduction to Numerical Methods (EL.E. 528)
- Theory of Fields (EL.E. 341)
- Electrical Engineering Projects (EL.E. 521)
- Electric Circuits Lab (ENGR 361)
- Digital Systems Lab I and II (EL.E. 336, EL.E. 337)
- Electronics Lab (EL.E. 353)
- Computer-Aided Design I (EL.E. 367)
- University Studies (US101)
